By having your camper take part in this survey we can assess the quality of life and independence for youth who are blind or visually impaired. This will help support the need for additional resources in physical activity and sports for youth who are visually impaired. Our hope is to provide campers and families with the resources to increase their quality of life and independence, now and in the future. Taking part in the survey is voluntary and I and/or my camper am free to withdraw at any time. NWABA does not collect any personal information during the quality of life survey process. Campers and families who have further questions about the survey are encouraged to reach out to our NWABA Camp Spark staff members.
